

# HUNGARIAN FIRE PROTECTION ASSOCIATION

EAPFP MEETING

PRAGUE

15-16.11.2017.

## Establishing of the association

- TSZVSZ Hungarian Fire Protection Association was established in December 1995 with 54 members. Back then the majority of the members were dealing with maintenance and repair of fire extinguishers.
- Now we have 176 members, from the full range of entrepreneurial fire protection field

➤ **The composition of the Association has changed, so we formed different departments:**

- Fire Extinguishers and Fire Protection Equipment Department
- Constructional Fire Protection Department
- Built-in Fire Signaling and Extinguishing Systems Department
- Teachers, Experts, Planners Department

## Committees:

- Supervisory Committee
- Ethics Committee
- Our Ethics Committee drew up the ethical standards concerning the market-, and entrepreneurial behavior of our members and we support their implementation.
- Work groups:
  - Event Management Team
  - International Relations Team
- We are members of the East-Central European Fire Protecting Corporation.
- We organize international conferences, where our members can get information about the foreign producers and products, and where we can discuss the eventual problems in Hungary.

## Benefits of the membership:

- We request opinions from the competent authority on issues concerning the members
- We select the events of our „Profession days” according the needs of the members
- We give regular information about tenders
- We operate a legal assistance call service
- Reduced fee of participation for our members at conferences

## **Aim:**

To protect the interests of businesses acting in the field of fire protection and to represent them on state level.

- Assistance in the legislation, proposals for modifications based on experience
- Professional and ethical recommendations to non-member companies
- Providing information to the membership about changes in the legislation
- Organizing professional presentations to assist compliance with the law and implementation
- Organizing Professional trainings, courses to help members in diversification

## Cooperation:

- **State** – Ministry of Interior, BM-OKF – Directorate for Disaster Management
- **Advisory boards** – Fire Protection Advisory Board, Fire Protection Technical Board, Technical Advisory Board, Industrial Safety Advisory Board
- **Professional Organizations** – Fire Protection Division of the Chamber of Engineering and Architecture, Association of Fire Protection Engineers
- **Educational Institutions** – Ybl Miklós Faculty of Architecture of Szent István University, Hungarian Public University, Disaster Management Institute, Budapest University of Tehcnology and Economics, Disaster Management Study Center
- **Research Institutes** – Hungarian Institute of Standards, Construction Quality Control Innovation Institute, Research Institute of Disaster Management

## Professional days:

- Fire extinguisher training – new edition of National Fire Safety Regulations
- Professional Day for Executives

## 20th anniversary of TSZVSZ:

- Hajdúszoboszló 5.11.2015. – 110 participants

THANK YOU  
FOR YOUR ATTENTION!

**EAST-CENTRAL EUROPEAN  
FIRE PROTECTION  
COOPERATION**

**EAPFP MEETING**

**PRAGUE**

**15-16.11.2017.**

# ESTABLISHING OF THE COOPERATION

- The basic idea of the East-Central European Fire Protection Cooperation was suggested by the Chairman of the Hungarian Fire Protection Association in his presentation on the first Czech International Fire Protection Conference in 2004.
- After several consultations, the leaders of the Fire Protection Associations of 5 countries (Czech Republic, Hungary, Poland, Ukraine and Slovakia) signed their first Cooperation Agreement on 4 October 2007, at the International Fire Protection Conference held by the Ukrainian Association in Yalta.
- In 2010, the Rumanian, the Croatian and the Slovenian Association applied for membership, as a result of this "Annexe I" of the Cooperation Agreement was signed on the 24.11.2010 in Budapest.

## REGULAR MEMBERS OF ECEUFIRE:

COUNTRY	ASSOCIATION	MEMBERSHIP	YEAR OF FOUNDATION
POLAND	OSPZPISZ	37	1995
CZECH REPUBLIC	PKPO	167	2000
ROMANIA	ASI	45	2009
UKRAINA	UFTSU	142	2004
SLOVENIA	SZPV	174	1993
HUNGARY	TSZVSZ	175	1995
SLOVAK REPUBLIC	APPO	20	resigned in 2014

Occasionally on some events there were also representatives from the Bulgarian, Croatian, Russian, Belorussian and German (Wirtschaftsverband Brandschutz e.v) associates.

- The purpose of the cooperation is to provide information to the members of each national Association about fire protection business opportunities in the respective region, to facilitate new relations between the members, to inform the members about the national fire protection regulations and about the European regulations.
- Regarding the latter, we have the aim to have influence on the final versions of these documents (regulations, norms, directives, decrees) through the experts of the member countries, who participate in the law-making process.
- In this process, ECEUFIRE wishes to facilitate a concerted - and possibly uniform - approach in the region.
- We provide information to the members of the member associations on newly developed fire protection methods, techniques; and on request of the members we give the opportunity to publicize the systems developed, produced by them.

- To achieve these main aims: the leaders of the associations meet at least 2 times a year; every 2 year the leaders of the fire protection authorities of each country are involved in one of the meetings;

- the members of the associations participate in the fire protection conferences, exhibitions held in the countries - also by holding presentations and exhibiting;

- we develop a common website, where the association members can gather much information to be able to achieve the goals above;

- we send informative letters to the association leaders -, which are forwarded to the members - about news and information concerning the region, and about new fire protection techniques.

# Divisions

- Producers, traders, maintainers of fire extinguishers
- Producers, distributors, maintainers of equipment, devices used by fire brigades
- Producers, distributors, maintainers of fire signaling devices
- Producers, distributors, maintainers of built-in fire extinguishers
- Producers, distributors, maintainers of constrictional (passive) fire protection materials, systems
- Fire protection planners, experts, tutors/instructors

➤ ECEUFIRE is operating as a non-registered association having legal personality accordingly it has no membership fee. According a common agreement, the arisen costs are paid by the member associations.

➤ The Chairman of the cooperation is elected every 2 years; in the period 2016-2018 the Chairman-In-Office is Boris Platkevich, Chairman of the Ukrainian Fire Protection Association

➤ The communication languages of ECEUFIRE are English and Russian.

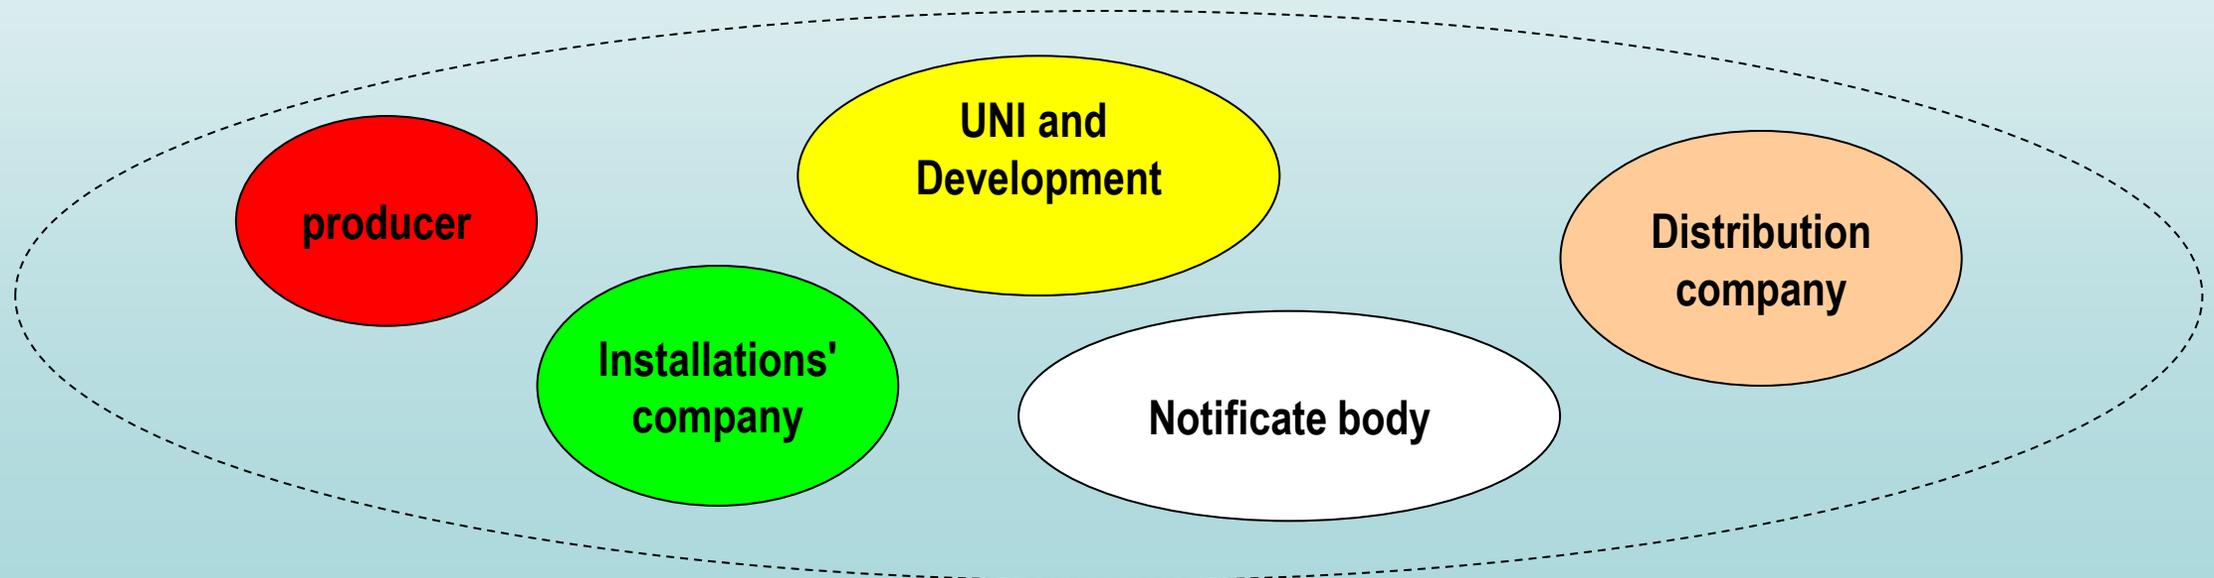

THANK YOU FOR YOUR  
ATTENTION!

**PROFESNÍ KOMORA POŽÁRNÍ OCHRANY**

- PKPO from 3.May 2000.
- Tell now ca.167 members

# Selection PKPO in separate sections

- Section active fire protection
- Section passive fire protection
- Section special technology and equipment
- Section planers and architects
- Section research and development (UNI, ..)

# What we want PKPO

- HI level of fire protection in building
